

Harshal John Robson

Business Analyst • MSc Business Analytics & Decision Science

115 Cherukara, Anakkara, Kerala, India | harshaljohnrobson@gmail.com | +91 7510304776 | [LinkedIn](#)

Analytical and results-driven Data Analyst with experience in business analysis, financial compliance, and predictive modelling within regulated and commercial environments. Proficient in Python, SQL, and BI tools with a proven ability to deliver data-driven insights that improve operations, compliance, and strategic decision-making. Skilled at working with structured and unstructured data, building dashboards, and developing forecasting models. Certified in Data Analytics (IBM) and Agile Project Management, with strong communication and stakeholder engagement skills.

EDUCATION

MSc, Business Analytics & Decision Science, University of Leeds, UK (2023–2024) — 2:1 Honours

BSc, Physics, ST Berchmans College, Kottayam, India (2020–2023) — First Class with Distinction

CORE COMPETENCIES

- **Programming & Modelling:** Python (Pandas, NumPy, Sentiment Analysis), Regression, Forecasting, Scenario Modelling, Machine Learning, NLP
- **Big Data & Cloud Tools:** Spark (exposure), Hadoop (exposure), AWS/Azure (familiarity)
- **Databases:** SQL, MySQL, Oracle (basic), Salesforce, SAP, Hyperion (exposure)
- **Business Intelligence & Visualisation:** Power BI, Tableau, Excel (Power Query, Power Pivot), Alteryx (familiarity)
- **Data Skills:** Data Cleaning, EDA, Hypothesis Testing, Automation, Anomaly Detection

EXPERIENCE

Consulting Data Analyst (Externship) – Beats by Dre

Extern | Remote | May 2025 – August 2025

- Applied Python (Pandas, NumPy) and AI tools for sentiment analysis and trend detection across 5,000+ consumer conversations, identifying market shifts and emotional drivers.
- Designed weekly Tableau dashboards supporting CX and marketing, improving campaign performance by 12%.
- Translated unstructured feedback into actionable insights for product innovation and brand positioning.
- Collaborated with cross-functional stakeholders to inform sales and product strategy decisions.

Data Analyst

Holy Faith Finance Pvt Ltd | Kochi, India | Apr 2023 – July 2023

- Conducted daily audits of 100+ financial records, achieving 98% accuracy in compliance datasets.
- Automated treasury reconciliation through Excel and Salesforce/SAP integration, increasing efficiency by 20%.
- Developed Power BI dashboards for cash flow forecasting, improving forecast accuracy by 15%.
- Performed data cleansing and remediation to align with compliance and financial reporting standards.

CERTIFICATIONS

- Atlassian Agile Project Management Professional Certificate
- IBM Data Analyst Professional Certificate
- Microsoft Office Specialist (Excel)
- IELTS (C1 — Score: 7.5)

PROJECTS

Airline Delays & Cancellations Analytics (US DOT On-Time Performance Data)

- Analysed 5M+ flight records to uncover patterns in delays, cancellations, and operational performance.
- Built interactive dashboards (Python Plotly/Dash) to visualise seasonal trends, high-risk airports, and carrier reliability.
- Developed a predictive model (Random Forest) to forecast flight delays with 78% accuracy.

Insurance Claims Fraud Detection (Public Kaggle Dataset)

- Analysed 500K+ historical insurance claims to identify anomalies and fraud patterns using advanced feature engineering.
- Built and compared ML models (Logistic Regression, Random Forest, XGBoost), achieving an AUC score of 0.84 for fraud detection.
- Delivered insights on high-risk claim categories, improving fraud flagging efficiency while reducing false positives.
